**FALK – EU ECOLABEL**

At HOUE we are determined to ensure right steps are taken in creating responsible furniture, meaning considering both social and environmental impact in the things we do.

We do work with a systemic perspective, taking into account how things are always connected. Consequently, we base our decisions on facts and thorough documentation. As a natural consequence FALK has been EU-Ecolabel certified. The EU Ecolabel works to reduce the overall environmental impact from production and consumption. Therefore, the EU Ecolabel evaluates the entire product lifecycle and the environmental problems that arise along the way - for the benefit of the environment, climate, humans and the earth's resources.

## FALK – EU ECOLABEL

EU Ecolabel:  
DK/049/005

As a part of living up to EU-Ecolabel's criteria regarding consumer information (declaration 10), HOUE has produced this document outlining the relevant consumer information for the FALK chair

### 1. Product description

FALK - is a chair made from post-consumer plastic – directly from household waste!

DIMENSIONS: displayed under each product.

MATERIALS: Legs: 4 leg construction, Seat: Plastic in PCP + padded seat in colored fabric made from 98% recycled post-consumer polyester.

DESIGNED BY: Thomas Pedersen

### 2. Polymer types above 100 grams

The only plastic above 100 grams is the FALK shell, weighing: 3964 (with armrest) 2472grams (without armrest). The recycled plastic waste is marked with resin identification code „5”.

The composition of the shell:  
75% post-consumer plastic (recycled household waste) 20% Glass fiber and 5% color pigment

### 3. Usage

FALK has a clear signature look but isn't overpowering in its appearance. This makes FALK fit equally well in a home, the hospitality market and in an office setting.

### 4. Information on glass types

Not relevant.

### 5. Compliance with fire safety

Not relevant, because no flame retardants have been added.

### 6. Declaration of non-use of biocides

HOUE hereby declares that no biocides are added to the product.

Further HOUE lives up to REACH and the European legislation.

### 7. Compliance with relevant EN standards

The FALK chair has undergone several tests and has passed the following:  
EN 16139:2013, EN 1022:2005 and EN 16139

Further, HOUE declares that no flame retardants have been added to the product.

### 8. Assembly instruction

The assembly instruction is included with the product.

### 9. Warranty and terms of conditions:

FALK is designed to last a lifetime, and more, and currently providing 5 years of warranty.

For further terms and conditions:  
<https://houe.com/Terms>

### 10. Provision of spare parts:

HOUE provides spareparts for customers in a period of 5 years from the delivery date. The spareparts are delivered without any costs within the 5 year warranty period if the product is faulty by normal use.

Contact information regarding spareparts can be found here: <https://houe.com/Contact>
